

<b>Policy Title:</b>	<b>Unscheduled Closures and Reductions in CPLMA Services</b>
<b>Policy Type:</b>	<b>Public Service</b>
<b>Policy #:</b>	<b>PS 05</b>
<b>Policy Authority:</b>	<b>Board</b>
<b>Effective Date:</b>	<b>June 2023</b>

### **PURPOSE**

To provide direction to staff in the event of the need for unscheduled closing of Clarington Public Library, Museums and Archives (CPLMA) facilities and/or reductions in service. Reductions in service may include accessibility features or services that require repair or are temporarily out of service (for example, an elevator, audio announcements, and/or accessible washroom).

### **SCOPE**

Decisions to close facilities and/or reduce services shall be made only for sufficient cause, including but not limited to:

- a. Safety of employees and/or CPLMA users;
- b. Insufficiency of staff to provide service;
- c. Necessity for building maintenance work, which cannot be done with members of staff and the public present;
- d. Major change in facility location or layout, which cannot be done with members of staff and the public present.

### **POLICY**

1. As the CPLMA are important community resources, and other factors being equal, the closing/reduction in service decisions shall be made with the goal of maintaining the widest range of services for the greatest number of people possible. Therefore, where appropriate and feasible, services will be reduced according to the following sequence:
  - a. Programs at any location;
  - b. Regular service at Orono Branch;
  - c. Regular service at Newcastle and Courtice Branches;
  - d. Regular Service at Sarah Jane Williams Heritage Centre;
  - e. Regular service at Bowmanville Branch.
2. The CEO or designate has the authority to make decisions to cancel programs, and/or to close facilities, and/or to reduce services that have an effect on operations lasting less than two (2) service days.

3. The CEO or designate has the authority to make decisions to cancel programs, and/or close facilities, and/or to reduce services that have an effect on operations lasting more than two (2) service days but less than eight (8) service days with the condition that the Board Chair or, in their absence the Vice-Chair, be informed of the decision and its circumstances immediately.
4. The Board Chair shall determine whether or not to call a special meeting of the Board to endorse the decisions or to authorize alternative measures.
5. Only the Board, in a meeting duly called, may make decisions to close facilities, and/or to reduce services, and/or to cancel programs that have an effect on CPLMA services lasting longer than eight (8) service days.
6. Consideration will be given to non-emergency closing with the following triggers:
  - a. Temperatures inside a building being higher than 32 degrees Celsius and local humidity exceeds 60% for more than two consecutive hours;
  - b. Temperatures are less than 15 degrees Celsius for more than two hours;
  - c. Adverse weather conditions are predicted to last longer than three (3) days;
  - d. Failure of electricity for more than forty-five (45) minutes during the evening.
